CLEAN. SANITIZE. PROTECT.

Our goal is to help everyone clean, sanitize and protect themselves and their environment from the harmful effects of dangerous microbes. Our powerful BioSpear™ formulations utilize a unique method of efficacy, which reduces a microbe's ability to colonize and reproduce on a surface. With proper use, it can prevent outbreaks before they happen.

Your level of clean is only as good as the products you use. They may get you there, but they won't keep you there.

The BioSpear™ family of innovative solutions not only clean and sanitize, but they protect. Unlike typical cleaners, when our products dry, they continue working! BioSpear™ accomplishes that by leaving behind an invisible bacteriostatic barrier that inhibits the growth of microorganisms.

At BioSpear™, we are dedicated to helping protect you 24 hours a day. When things get dirty, We've Got You Covered.

BioSpear™ provides free product to volunteer organizations working in impoverished and at-risk countries. By purchasing our products, you are helping us help others.

RAISING FUNDS THROUGH RAISING AWARENESS

BioSpear™ products are a great fundraising tool. From sports clubs, to schools and churches, organizations can use our products to effectively 'Raise Funds Through Raising Awareness'. If you are interested in utilizing our products for fundraising, or even private labelling our products for your own fundraising efforts, feel free to reach out to us and talk about helping organizations to fund themselves.

PRIVATE LABELING & LICENSING

Utilizing BioSpear™ technology can help expand your brand and build a completely new income stream for your business. We offer most of our products for private label and licensing. You can also become a certified BioSpear™ brand distributor and create a substantial income. Below is an example of our products available for private branding or licensing.

BIOSPEAR™ SPORTS ODOR PROTECTANT.

Currently available for private label and licensing.
MOQ 10,000 units.

BACTERIOSTATIC SANITIZING WIPES

The hardest part about cleaning is actually doing it. People get busy. Surfaces get dirty. We know. That's why we developed our wipes.

BioSpear™ Bacteriostatic Sanitizing wipes easily and effectively clean and sanitize surfaces, utilizing our safe and effective bactericidal formulation. At the same time, BioSpear™ wipes leave behind a persistent bacteriostatic barrier that inhibits the growth and colonization of bacteria on hard surfaces. Even if you miss a day, BioSpear™ has you covered.

Our wipes are a new way to clean and apply our technology conveniently and quickly, with only one step, zero hassle and persistent action.

BACTERIOSTATIC SANITIZING SPRAY

When the typical cleaners and sanitizing sprays dry, they are done! They stop working as soon as they dry on the surface. BioSpear™ isn't typical. Once BioSpear™ dries, it **KEEPS ON WORKING**, dealing with bacteria by using an invisible persistent bacteriostatic barrier that inhibits the growth of bacteria. No matter if it's a countertop, changing table, door handle; you name it.

BioSpear™ Sanitizing Spray is a single solution for cleaning virtually any hard surface. In one spray, you can clean and sanitize surfaces, while simultaneously applying the powerful barrier to inhibit microbes from colonizing and reproducing on the surface.

BSSBW 50	50 ct Soft Pack	12

FULL BODY CLEANSING WIPES

BioSpear™ Full Body Cleansing Wipes were developed for advanced hygiene in challenging environments, when showering or bathing is not an option.

Our alcohol-free full body EXTRA LARGE cleaning wipe features a water-based formulation to clean and eliminate 99.99% of skin-based odor causing bacteria in just 15 seconds. The fragrance-free formulation is powered by Benzalkonium Chloride; a safe, powerful and effective antiseptic. Our full body wipes also contain coconut extract and witch hazel to sooth skin and prevent dryness.

BioSpear™ Full Body Cleansing Wipes leave no sticky residue on skin, and are the gentlest rinse-free way to clean when traditional bathing is not an immediate option. Each thick, extra large body wipe can easily clean the entire body.

BioSpear™ Full Body Cleansing Wipes are gentle enough for medical patients, yet strong enough for the most active athlete.

FOAMING PERSISTENT 4-HOUR HAND SANITIZER

One of the most important keys to a good infection control program is hand sanitization. Having a visible and convenient way for employees and customers to effectively sanitize their hands is key to controlling cross contamination.

Our non-alcoholic foaming hand sanitizer and moisturizer features a water-based formulation to rid hands of 99.99% of germs and bacteria that can cause illness. BioSpear™ hand sanitizer kills common germs that cause illness in just 15 seconds. The bio-based, fragrance free formulation is powered by Benzalkonium Chloride, a safe, powerful and effective antiseptic. Our hand sanitizer uses the same BioSpear™ method and gives you up to 4 hours of bacteriostatic protection per use.

ANTIMICROBIAL SURFACE PROTECTANT

BioSpear™ liquid antimicrobial treatments are a safe and effective way to protect most surfaces with a micro biostatic barrier that inhibits the growth of bacteria. When applied to a clean, sanitized surface, BioSpear™ lays down a bacteriostatic barrier that continues working long after it dries. With its unique method of efficacy, BioSpear™ Antimicrobial Protectant will reduce the instances of microbial contamination by making a surface inhospitable for colonization.

BioSpear™ Antimicrobial Protectant easily and effectively protects surfaces even if you miss a day, or even a week, of sanitizing.

With easy to use foggers, electrostatic sprayers or a misting or spray bottle, BioSpear™ can be applied to a clean sanitized surface for persistent long term protection.

SPORTS ODOR PROTECTANT

BioSpear™ Sports Protectant is the most effective way to NEUTRALIZE, ELIMINATE and PREVENT all sports related odors on contact!

Sports environments, athletic gear and equipment are a breeding ground for all types of odor-causing bacteria. Equipment, uniforms and facilities develop a distinct odor that every coach and athlete knows well. With BioSpear™ Sports Protectant, you can easily eliminate and protect your athletic environment and gear from these odors, and prevent them from coming back.

BioSpear™ Sports Protectant can be used on gear, uniforms and most facility surfaces. BioSpear™ works on all sports-related odors upon contact and prevents them from coming back for up to 90 days!
